

## **SATURDAY June 14, 2025**

13:15 *Registration*

13:45 **Introduction to the course**  
Emanuele Zucca

**14:00 – 16:30 Essential requisites before attending this course and the ICML**  
Chair: Laurie Sehn

14:00 **Basics of B-cell lymphoma biology**  
Ryan Morin

14:30 **Basics of Hodgkin lymphoma biology**  
Ralf Küppers

15:00 **Basics of peripheral T-cell lymphoma biology**  
Laurence de Leval

15:30 **Clinical implications of the updated lymphoma classifications**  
Ranjana Advani

16:00 **Principles and aims of lymphoma staging and response assessment**  
Martin Hutchings

16:30 *Coffee break*

**17:00 Workshop session I (3 groups rotating)**  
Group 1: **Lymphoma pathology for clinicians**  
Leticia Quintanilla de Fend  
Group 2: **Lymphoma in pregnancy**  
Fedro Peccatori  
Group 3: **Interpretation of Flow cytometry**  
Georg Stüssi

## **SUNDAY**      **June 15, 2025**

**08:30**      **Workshop session II** (3 groups, rotating)  
Group 3: **Lymphoma pathology for clinicians**  
Leticia Quintanilla de Fend  
Group 1: **Lymphoma in pregnancy**  
Fedro. Peccatori  
Group 2: **Interpretation of Flow cytometry**  
Georg Stüssi

**09:30 – 11:30**      **Immunotherapy**  
Chair: Davide Rossi

09:30      **Principles of lymphoma immunology and rationale for immunotherapies**  
Björn Chapuy

10:00      **Bispecific monoclonal antibodies: How to best exploit them**  
Catherine Thieblemont

10:30      *Coffee break*

11:00      **CAR-T cells: How to best exploit them**  
Gloria Iacoboni

**11:30– 12:00**      **Special topics I**  
Chair: Davide Rossi

11:30      **Lymphoma radiotherapy for cure and for palliation**  
David Hodgson

12:00      *Lunch*

**14:00 – 16:00**      **Initial management of the main indolent entities: Who, when, and how to treat**  
Chair: Emanuele Zucca

14:00      **Marginal zone lymphomas**  
Sonali Smith

14:30      **Waldenström macroglobulinemia**  
Steven Treon

15:00      **Chronic lymphocytic leukemia**  
Barbara Eichhorst

15:30      **Follicular lymphoma**  
Stefano Luminari

16:00      *Coffee break*

**16:30– 17:30**      **Special topics II**  
Chair: Laurie Sehn

16:30      **Histological transformation**  
Jessica Okosun

17:00      **Beyond BTK and BCL2: New druggable targets**  
Anastasios Stathis

## **MONDAY June 16, 2025**

**08:30 Workshop session III** (3 groups, rotating)  
Group 2: **Lymphoma pathology for clinicians**  
Leticia Quintanilla de Fend  
Group 3: **Lymphoma in pregnancy**  
Fedro Peccatori  
Group 1: **Interpretation of Flow cytometry**  
Georg Stüssi

**09:30 – 12:00 Initial management of aggressive entities**  
Chair: Davide Rossi

09:30 **DLBCL subtype-specific approaches?**  
Laurie Sehn

10:00 **Aggressive extranodal B-cell entities**  
Kate Cwynarski

10:30 *Coffee break*

11:00 **Burkitt lymphoma and other high-grade B-cell NHL**  
Andrew Davies

11:30 **Should CNS prophylaxis be abandoned in large B-cell lymphomas?"**  
Andrés Ferreri

12:00 **Peripheral T-cell lymphomas**  
Wonseog Kim

12:30 *Lunch*

**14:30– 15:30 Special topics III**  
Chair: Emanuele Zucca

14:30 **Fitness and toxicity assessments for treatment choice**  
Gita Thanarajasingam

15:00 **Hodgkin lymphoma**  
Alex Herrera

15:30 **Mantle cell lymphoma**  
Martin Dreyling

16:00 *Course evaluation*
